

Cleaner, Clearer, Better Tasting Water

High Flow SQC Filtration System

- *Easier Change-Out*
 - Sanitary Quick Change (SQC) helps provide:
 - * Easier cartridge change-out
 - * Cleaner cartridge change-out
 - * Virtually spill-free cartridge change-out
- *High Flow Filtration*
 - 20 gpm (75.7 lpm) flow rates
 - 1" (2.54 cm) inlet/outlet connections
- *Longer Lasting*
 - 100,000 gallon (378,541 liter) or one year cartridge life under most water quality conditions
- *Cleaner Water*
 - 5 micron nominal sediment reduction
 - Up to 16 sq. ft. (1.5 sq. meters) of sediment reduction surface area
 - Up to 85% chlorine taste and odor reduction using a patented carbon block technology
 - 2 versions:
 - * AP902 - Sediment/Well Water
 - * AP903 - Sediment and Chlorine Taste & Odor/City Water
