

## 5-UDS-L-K20FM

### Single Undersink Water Filter System

- Single stage filtration
- Complete installation kit with double bend faucet
- Sureseal 1 micron bacteriostatic cartridge (6-CVM-68260Z)
- Reduces dirt, rust, chlorine, chemicals
- Service monitor on faucet
- 3 year warranty

## 5-UDNY-K20M

### Twin Undersink Water Filter System

- Two stage filtration
- Complete installation kit with double bend faucet
- Sureseal filter cartridges, 3 micron (6-SPF-68260) & 0.5 micron (6-CCA-XB68260)
- Reduces sediment, taste/odour and chemicals
- Protection from giardia & cryptosporidium
- Service monitor on mounting bracket
- 3 year warranty

## 5-RTX-TS-DLM

### Benchtop Water Filter System

- Portable drinking water system
- Sureseal 1 micron bacteriostatic cartridge (6-CVM-68260Z)
- Reduces dirt, rust, chlorine, chemicals
- Service monitor on base
- 2 lpm flow rate
- 3 year warranty

## RD11-SL

### Shower Filter System

- Easy maintenance, reverse flush every 12 months (adaptor supplied)
- Also suitable for baths
- Filtration media suited to hot water
- Reduces sediment, dirt/rust, chlorine, chemicals and scale
- Protects your hair and skin from drying
- Supplied with flow restrictor
- Flow restrictor may need to be removed for installation in conjunction with instantaneous hot water services

## 5-FX750-RP

### Heavy Duty Filter Housing

- Heavy duty multi purpose housing
- 3/4" bsp inlet/outlet tapered threads with knife edge seals
- Complete with mounting bracket, screws and sump wrench
- 40 lpm flow rate
- 3 year warranty

## 5-BB101, 5-BB201

### Jumbo Filter Housing

- Whole of house use
- High flow rate applications
- Ideal for tank and bore water
- 1" bsp inlet/outlet
- Mounting bracket & screws
- Pressure relief button (for ease of cartridge change out)
- 2 year warranty

## URO4-100M

### Reverse Osmosis Water Filter

- Triple units available for heavy duty sediment areas
- Wall mount and undersink applications
- Pure water storage tank and full installation kit supplied
- Protection from Giardia and Cryptosporidium
- Reduces sediment, chlorine, taste & odour, heavy metals and fluoride from your incoming water source

## 5-UDVUV-1

### Ultraviolet Water Filter System

- Complete installation kit with double bend faucet for easy installation
- Cartridges supplied
- Superior protection from infectious water-borne bacteria such as giardia and cryptosporidium
- Reduces sediment, taste/odour
- Recommended for rain water tanks: Water from dams, bores, rivers or creeks requires water analysis prior to use
- 12 month warranty

## 6-SPF-P5, 6-SPF-P10, 6-SPF-P25

### String Wound Cartridges\*

- 100% Food Grade polypropylene
- Reduces dirt, rust, algae
- Chemical resistant
- Prefilter for twin systems

Available in:

5, 10 & 25 micron  
15 lpm flow rate 5 & 10 micron  
20 lpm flow rate 25 micron

## 6-SPF-003-XL Polyspun Cartridges\*

- 100% Food Grade polypropylene
- Thermally bonded
- Reduces dirt, rust, algae
- Chemical resistant
- Prefilter for twin systems

Available in:

3 micron  
15 lpm flow rate

## VP-M30-10

### Re-usable Pleated Cartridges\*

- 100% Food Grade pleated
- Washable
- Reduces dirt, rust, algae
- Chemical resistant
- Large filter surface area

Available in:

10 & 30 micron  
20 lpm flow rate

## 6-SC-C1

### Budget Carbon Cartridges\*

- Budget carbon cartridge
- Premium performance
- Reduces dirt, rust and offensive taste & odour

Available in:

5 micron  
15 lpm flow rate

## 6-CTO-234-10

### Budget Carbon Cartridges\*

- Medium performance
- Reduces sediment, dirt, sand, chlorine and offensive taste & odour

Available in:

5 micron  
15 lpm flow rate

## 6-CA-UDF-10

### High Performance Carbon Cartridges

- Granular carbon
- High performance
- Reduces sediment, chlorine and offensive taste & odour

Available in:

5 micron  
15 lpm flow rate

## 6-CVM-BC10Z

### High Performance Carbon Cartridges (bacteriostatic)\*

- Silver impregnated carbon block
- Light weight high performance
- Reduces dirt, rust, chemicals, chlorine, taste & odour, VOCs
- Contains bacteriostatic media

Available in:

1 micron (nominal)  
15 lpm flow rate

## 6-CCA-XB10

### Ultra High Performance Carbon Cartridges\*

- Solid extruded carbon block
- State-of-the-art filtration
- Reduces chemicals, lead, heavy metals, chlorine, taste & odour
- Provides protection from giardia & cryptosporidium

Available in:

0.5 micron (nominal)  
1 micron (absolute)  
10 lpm flow rate

## 6-CCA-XB68260, 6-CVM-68260Z, 6-SPF-68260

### Sureseal Cartridges

- Positive single sealing method reduces bypass
- Designed to ensure optimum cartridge performance

Available in:

0.5, 1 & 3 micron

## Jumbo Cartridges String Wound 10/20"

- 5/25 & 50 micron
- 10" 76.1 lpm, 20" 170.3 lpm flow rates
- Reduces dirt, rust, sediment

## Washable Pleated 10/20"

- 10 & 20 micron
- 10" 6.1 lpm, 20" 170.3 lpm flow rates
- Reduces dirt, rust, sediment

## Carbon radial 10/20"

- 5 micron
- 10" 18.9 lpm, 20" 37.9 lpm flow rates
- Reduces sediment, taste/odour

## Carbon granular 10/20"

- 5 micron
- 10" 22.5 lpm, 20" 39.9 lpm flow rates
- Reduces sediment, taste/odour

\*Interchangeable with all standard filter housings
